

Nisha Poudel

React JS / Frontend

Address: Jorpati, Kathmandu

Phone: +977 9860852000

Email: nishapoudel400@gmail.com

LinkedIn: <https://www.linkedin.com/in/nisha-poudel-27360a188/>

GitHub: <https://github.com/nishapoudel>

Profile

Experienced IT expert with a year of proficiency in HTML, CSS, JS, Bootstrap, React, Django and Figma. Highly motivated individual dedicated about creating interactive web applications.

Technical Skills

HTML: Proficiency in writing well-structured and semantic HTML code to create the basic structure of web pages.

CSS: Strong skills in using CSS to style and format the layout of web pages, including knowledge of responsive design principles.

JavaScript: Competence in JavaScript programming, including DOM manipulation, event handling, and familiarity with modern JavaScript frameworks.

React: Proficiency in the React library for building user interfaces and web applications.

Responsive Web Design: Ability to create websites that adapt and function well on various devices and screen sizes

Version Control/Git: Understanding of version control systems like Git, and experience with collaborative development using platforms like GitHub or GitLab

Figma: Wireframing and creating low-fidelity mockups to iterate and refine design concepts. Proficient in turning wireframes into interactive prototypes to validate design decisions.

Relational Database Management Systems (RDBMS): Proficiency in working with popular RDBMS like MySQL, PostgreSQL, Oracle, SQL Server, or SQLite.

SQL (Structured Query Language): Strong command of SQL for querying, updating, and managing data within the database.

Django: Skilled in Web framework for building dynamic web apps.

Professional Experience

Jr. React Developer Silicon Soft and IT Consultant Pvt. Ltd. (September 2022 – May 2022)

- Web application using HTML, CSS, Bootstrap, JavaScript and jQuery
- Web application using React JS, Redux state management and RESTFUL API
- Build Client Management System (CMS) using React for the frontend.
- Build Enterprise Resource Planning (ERP) using React for the frontend.
- Build a Beauty Hub website for booking appointments.
- Proficient in using Git for version control and collaborative development.
- Knowledge of resolving merge conflicts and reverting changes when necessary.
- Able to create and manage design prototypes, wireframes and mockups using Figma.
- Work with backend developers to implement CRUD (Create, Read, Update, Delete) operations through APIs, ensuring seamless interaction between the application and the database.

Frontend Developer Intern Silicon Soft and IT Consultant Pvt. Ltd. (April 2022 – July 2022)

- Got to experience HTML, CSS, JavaScript, Bootstrap and React JS
- Collaborated with the development team to design and implement user-friendly and responsive web interfaces.
- Work with React.js to develop dynamic and interactive user interfaces for web applications.
- Optimize web applications for maximum speed and scalability, utilizing techniques such as code splitting and lazy loading.
- Collaborated with UX/UI designers to ensure a consistent and visually appealing design language across the application.
- Debug and troubleshoot front-end issues, ensuring smooth functionality and a seamless user experience.
- Assist in designing and creating relational databases using MySQL, ensuring proper schema design and normalization.

Freelance Projects

Lawcaters

- Started by creating wireframes and mockups of the website's layout and design using Figma

- Created reusable UI components using React ES6 features.
- Styled the website using CSS, ensuring a visually appealing consistent design and used Bootstrap framework to achieve responsive design.
- Utilized React for dynamic rendering of content and efficient UI updates.
- Utilized React Router for client-side routing
- API integration to fetch, display and edit the data.
- <https://lawcaters.com>

Tendel Hardware

- Created wireframe and design website layout using Figma.
- Designed the website layout and structure using HTML 5 for semantic markup and CSS.
- Utilized JavaScript for event handling.
- Utilized Django to build the website's backend infrastructure.
- Leveraged SQLite as the DBMS for data storage.
- <https://tendelhardware.com>

Real-estate

- Designed a wireframe layout using Figma.
- Transformed wireframe using HTML to create web page and CSS to achieve the desired layout
- Established a solid backend foundation using Django.
- Employed SQLite to handle structured storage of property information.

Education

College of Applied Business & Technology, Kathmandu, Nepal

Bachelor in Science in Computer Science and Information Technology (BSc. CSIT) – 2022

Himalayan Int'l Model School

Nepal Examinations Board (NEB +2) – 2017

Universal Secondary Boarding School

School Leaving Certificate (SLC) – 2015
